

Microglass/Microblock/Macroteca

Stackable filing cabinet system for slides and blocks

Manufacturer: Diapath S.p.A. via Savoldini 71 – 24057 Martinengo (BG) – Italy –
Tel. +39 0363-986411 Fax +39 0363-948000 www.diapath.com info@diapath.com

Code	Description	Packaging
045001	White Microglass for slides	01 pc
040801	White Microblock for blocks	01 pc
045006	Modular storage system	01 pc

Accessories

040040	Top cover for Microglass/Microblock/Macroteca	01 pc
040041	Separation spring for slides for Microglass	01 pc
040010	Base for Microglass, Microblock and Filing Cabinet	01 pc
GP13113	Wheeled plinth base for Microglass, Microblock and Filing Cabinet	01 pc

Intended use

Microglass/Microblock

Stackable filing cabinet system for slides and paraffin-embedded blocks. Modular stacking storage system allows minimum bulk with maximum storage capacity and protection of the contents.

Modular storage system (Macroteca)

Thanks to its modularity and versatility, the filing cabinet, 7 drawers, allows optimizing the space in the laboratory

- Specific for storage of super mega cassettes and macroslides
- Stackable and modular
- 7 total modular opening drawers

Composition

- Structure painted with epoxy powder
- Total white

Functional features

Code	Capacity	Drawers	Dimensions (WxDxH, mm)	Weight (vuoto)	Weight (pieno)
045001 Microglass	5000 Slides*	14	485x480x152	12Kg	26Kg
040801 Microblock	850 Blocks	14	485x480x100	9Kg	20Kg
045006	2500 Slides or 105 Blocks	7	485x480x152	8 kg	24 kg

*Without separation spring

Code	Product	Dimensions (LxPxH, mm)
040040	Cover	485x480x3
040010	Base	485x480x100

- Stackable up to 5 Microglass/Microblock maximum
- Mixable stack Microglass/Microblock

Instructions for use

System equipped with drawers for slides and blocks

- Fill the drawers up to available slots filling
- Insert the drawer in the specific compartment of the filing cabinet

Product for generic lab use, no CE mark needed

To avoid mistakes, qualified and trained staff should use the product. Professional use product. The guidelines concerning safety on the workplace must be applied according to current regulations. The tools used for diagnosis must be suitable for diagnostic use in laboratory. Only authorized, trained and competent staff should perform the diagnosis.

Quality control

Both products and raw materials are constantly integrated and tracked in information systems allowing their traceability.

Storage

Store the product according to the specifications listed on the label. The product, if opportunely stored and integrally packed, is stable up to the expiry date reported on the label. Do not use after expiration date.

If the product is not stored as recommended, its performance may change and must be validated by the user.

Disposal instructions

The expired and/or unused product must be disposed according to local waste regulations, based on danger classification on the label and after possible contaminations evaluation. In some cases it may be necessary an analytical evaluation to determine the correct waste classification and the danger features.

Warnings and precautions

Please refer to instructions of use.
